

Data Community Committee Charter

Purpose

The purpose of this committee is to collaborate with other similar organizations in order to share knowledge, best practices, and resources related to data management. The committee will work to identify areas of common interest and develop strategies for addressing shared challenges. Additionally, the committee will collaborate with other organizations on events and training, market our events at their meetings, allow them to market their events at our meetings, and collaborate on large events where we all share responsibility for organizing, marketing and managing.

Goals

The goals of this committee are as follows:

- To establish relationships with other organizations that are similar to ours.
- Establish collaboration with local universities and colleges, encourage students in data, analytics, and data science programs to attend meetings. Educate universities on the value of DMBok and CDMP.
- To identify areas of common interest and develop strategies for addressing shared challenges.
- To collaborate with other organizations on events and training.
- To promote the adoption of best practices related to data management.

Membership

Membership in this committee is open to all members of the Data Management Professional Organization who are interested in collaborating with other organizations that are similar to ours.

Meetings

The committee will meet on a regular basis, as determined by the members. Meetings may be held in person or virtually.

Reporting

The committee will report its activities and progress to the Data Management Professional Organization Board of Directors on a regular basis.
