

Education and Training Committee Charter

Purpose

The Education and Training Committee (ETC) advises the board on the long-term education and training goals that meet the objectives of DAMA International Chapter of Central Ohio, d.b.a Buckeye DAMA. A major role for the committee will be to establish and maintain the organization's core curriculum and relate this curriculum to the DAMA Body of Knowledge (DMBoK) and Certified Data Management Professional (CDMP) designations.

Master Document: [TrainingAndEducationCommitteeCharter.docx](#)

Responsibilities

The ETC will have the following responsibilities:

- Develop a core curriculum that aligns with DMBoK's best practices.
- Ensure that the curriculum remains up-to-date with DMBoK's latest version.
- Establish and maintain a training program that prepares individuals for CDMP certification.
- Provide guidance to the board on long-term education and training goals.

Membership

The ETC will consist of at least three members, including a chairperson. The chairperson will be appointed by the board. The committee members will be selected by the chairperson in consultation with the board.

Meetings

The ETC will meet at least once every quarter. Additional meetings may be scheduled as needed.

Reporting

The ETC will report to the board on a regular basis. The report will include updates on the progress of the committee's activities, recommendations for future actions, and any issues that require attention.

Glossary

The **DAMA International Chapter of Central Ohio**, also known as **Buckeye DAMA**, is a dynamic organization within the central Ohio Business Intelligence and Information Management community. It is a chapter of DAMA International, which is dedicated to advancing the concepts and practices of information and data management ¹².

The **Data Management Body of Knowledge (DMBoK)** is a collection of processes and knowledge areas that are generally accepted as best practices within the Data Management discipline. It is developed by DAMA International through its community of experts. The DMBoK provides a framework for organizations to manage their data and mature their information infrastructure ³.

The **Certified Data Management Professional (CDMP)** is a globally recognized Data Management Certification program run by DAMA International. It validates data management professionals' experience and proficiency with topics like compliance, project management, data management, and business intelligence ⁴⁵.
